Saturday, September 13. 1718.

London, September 13.  
Yesterday arriv'd a Mail from Holland.

From the Amst. Courant, dated Sept. 20.  
Paffarowitz, August 24.

**O**n the 21st Instant, the Ratifications of the Treaty of Peace between the Emperour and the Turks, were exchang'd with the usual Solemnity, in the Presence of the Ambassadors Plenipotentiaries of the King of Great Britain and the States General Mediators, by the Sieur Dirlings, Secretary of the Emperour's Ambassy, on the Part of his Imperial Majesty, and by Fitteri Effendi, Secretary of the Turkish Ambassy, on the Part of the Grand Seignior; and that being over, the Ratifications of the Treaty with the Venetians, were in like Manner exchang'd by the Secretary Bianchi, on the Part of the Republick, and by the same Effendi, on the Part of the Sultan.

Belgrade, Aug. 26. Sir Robert Sutton, Ambassador and Plenipotentiary of the King of Great Britain, came hither Yesterday, and was saluted by a triple Discharge of our Artillery. The Night before, the Sieur Mair, Secretary of M. Fleischman, came hither also with the Ratification of the Treaty of Commerce and Navigation concluded with the Turks by the said M. Fleischman. We hear from Constantinople, that the Imperialists that were Prisoners with the Turks, particularly Baron Petrasch and Baron de Stein, who were in the Seven Towers, are releas'd, and set at large, Liberty, but were told, that they must carry but one Hour at Galata or Pera, and must then depart directly to the Imperial Frontiers.

Viena, Sept. 7. The Emperour has caused Te Deum to be sung in our Cathedral Church, and all the Artillery and Musketry to be three Times fired, in Thanksgiving and Rejoycing for the great Victory gain'd by the British Fleet over that of the Spaniards. The Empress has been in Paris these Two Days, so that we hourly expect and hope for her Majesty's Delivery of an Arch Duke. M. Fleischman is arriv'd here with the Treaty of Commerce which he concluded with the Turks. The Emperour will name some of his Principal Ministers to go to Bohemia, to put the Chancery of that Kingdom upon a better Foot. His Imperial Majesty being about to make another Promotion of Knights of the Golden Fleece, the Prince de Saltzbach will be honoured with that Dignity. Among the Rejoicings to be made for the Empress's happy Delivery, there will be several Theatrical Representations, among which there is one wherein Cardinal Alberoni is ridiculed in a manner that is gross enough.

Vienna, Sept. 7. The Marquis de St. Thomas, First Minister of the Duke of Savoy, uses all possible Applications at our Court for his Master's being admitted into the Quadruple Alliance, and 'tis supposed he will obtain his End. Prince Eugene of Savoy is now entirely recovered from his late Illness, and will suddenly go to the Netherlands, to put an end to the Disorders there. 'Tis said that the Electoral Prince of Bavaria, who has hitherto held himself incognito here, will suddenly appear publickly. From the Amsterdam Gazette.

Vienna, Sept. 7. The Landgrave of Hesse Cassel having consented to evacuate the Forts of Rhinfels, and that a Garrison of the Circle should be put into it, it is very agreeable to this Court, and 'tis thought he will obtain a Satisfaction for the Expences he has been at upon the Fortifications of that Place. The Affairs of the Duke of Mecklemburg are in a good Way, since he is willing to submit to the Imperial Mandate; but 'tis said he will not be made to give Satisfaction to his Nobility; so that all that is past shall be forgotten, and the Nobility shall for the future enjoy their Rights and Privileges. From the Hague Courante dated Sept. 21.

Dresden, Sept. 14. The King of Poland is gone from Brunn in Moravia, and pass'd forward for Warsaw, and the Electoral Prince his Son is gone for Viena, where he will carry all the Winter. Since the Field-Marshal Count Fleming, who accompanied his Majesty to Moravia, is returned hither, he has been daily in Conference with those of the Peity Council who stay here. Sir John Vernon, Envoy Extraordinary of the King of Great Britain, is gone from hence to Lepnick, in order to return to London. 'Tis written from Posen; that the States of Great Poland, have begun their Sessions at Sacta, and that the Ecclesiastical Deputies therein have very much remonstrated against the Protestants, being not willing they should appear at this Assembly, and much less at the General Diet.

Hamburg, Sept. 16. We have here no other Advice concerning the Russian Fleet, than that they are near Hanoe and Alands, where the Czar expects the last Resolution of the King of Sweden. Two Days ago, the long expected Russian Man of War, carrying 54 Guns and 500 Men, commanded by Captain Brusa, arrived before the Elbe, to carry off the Yacht that was presented to the Czar by the King of Prussia, now lying in this Haven, and conduct it to Petersburg. 'Tis written from Mecklemburg, that that Court is in some Pain, upon the News they have received from Berlin, that 25000 Men of the Prussian Troops

Troops have Orders to be ready upon the first Notice, to march to the Place of Rendezvous that shall be then declar'd to them; and that it is talk'd the Garrison of Domitz will be reinforce'd. The King of Great Britain has again represent'd by a Letter to that Duke, that if he doth not speedily come to an Accommodation with his Nobility, the Imperial Execution should and must take Place without further Delay. To which the Duke answer'd, that he had already made Offers for an amicable Accommodation, but that they were not accepted by the Nobility, so that he must expect the utmost. We understand that the Princess, Consort of the Hereditary Prince of Hesse Cassel, is with Child. No other Foreign Minister, but the King of Prussia's, is aboard the Czar's Fleet.

From the Amst. Courant, dated Sept. 19.

Paris, Sept. 12. The Parliament of Bretaign interests its self in the Dis-favour the Parliament of Paris is under, and has with all Humility remonstrated to the King concerning it, as also have earnestly besought the Releasement of the Three Members of the Parliament of Paris, who remain still in their Confinement. They have at the same Time written to our Parliament thereupon, expressing their approbation of what they have done. These Letters were read in the Parliament the 7th Instant, which was the Day before the Vacation. 'Tis talk'd afresh that the King will again hold his High Court call'd the Bed of Justice on the 20th Instant, but there is little Credit given to that Report. 'Tis known that our Coin is counterfeited in the Neighbouring Countries, and therefore very strict Orders are given to watch upon the Frontiers to binder its being brought in. According to the Advices we have from Sicily, the Spaniards are still before Messina, but that they are in Want of Cannon-Balls, and so their Firing is much abated.

From the Amst. Gazette, dated Sept. 20.

Paris, Sept. 12. All the Courts are adjourn'd to the 15th of October, and that of the Regency to the 16th. The Parliament have also finish'd their Sessions, and will not resume them till after Martinmas. That Company have obtain'd nothing with Respect to their three Members, but the first Answer the King gave them by the Keeper of the Seal. The Parliament of Bretaign have written a Letter to them upon this Occasion, wherein they approve their Conduct, and exhort them to repeat their Instances in their Favour. 'Tis said the same Parliament have also written a Letter to the King, and another to the Keeper of the Seals. By the fifth they represent to his Majesty, in most subtilissime Terms, the State of their Province, the Affairs whereof are not yet settled; and 'tis assur'd, that the States have protested against the Demands that have been made upon them; but that the Parliament have regist'red all that the King has sent them.

From the Haerlem Courant, dated Sept. 20.

Paris, Sept. 13. Two Days ago, the Earl Sean-hope returned hither from Madrid, and had Yesterday private Audience of the Duke Regent, upon the State he left the Affairs in at Madrid. That Court, extreamly puffed up by their Conquests in Sicily, persisted in their Resolution of carrying on an open War against the Emperor; so that that Lord was oblig'd to depart from Madrid without effecting any thing. It was three Days after his Departure, that they had the fift Advice of the Defeat of their Fleet; but that News coming by the Way of Genoa, they would not believe it.

LONDON, Printed by S. Gray in Amen-Corner.

But a Courier arrived there the 4th Day from Cardinal Acquaviva, who came from Rome the 26th of August, and arriv'd at Madrid the 31st, and brought them the certain News and Circumstances of the Sea Fight. We are assur'd, that the Court of Spain is extreamly incens'd at the Steadiness of his Britannick Majesty, who wil not suffer them to make War against the Emperor or the King of Sicily, and Cardinal Alberoni had to Nation, nor the least Expectation of this Courage and Resolution, the News wherof, 'tis said, has mightily cast him down.
